

### **Dr. Emily Jenkins**

Dr. Emily Jenkins, Ph.D., DVM, BScHon is Professor and Acting Head, Department of Veterinary Microbiology, Western College of Veterinary Medicine at the University of Saskatchewan, Saskatoon, Canada, and previously served as the Wildlife Disease Specialist for the Government of Canada. She teaches in parasitology, public health, One Health, and emergency management. Her research takes a One Health approach to diseases that transmit among animals and people via food, water, vectors, and the environment. Locally, she serves as chair of the Wildlife Health Research Fund and outgoing chair of the University Northern Studies Committee. More broadly, she is Canadian representative to the Terrestrial Working Group of the International Arctic Science Committee, a member of the Alaska CDC and Native Tribal Health Consortium One Health working group, and the Climate Change and Infectious Disease working group, International Circumpolar Surveillance of Emerging Infectious Disease, Arctic Council. She also serves as Associate Editor of the International Journal for Parasitology - Parasites and Wildlife and on the Editorial Advisory Board of Food and Waterborne Parasitology.
