

**Dr Nancy Doubleday**

Dr. Nancy Doubleday is an Associate Professor in the Department of Philosophy at McMaster. With a range of academic pursuits, from a PhD in biology to a law degree, her work focuses on the areas of social justice, sustainability, ecological health and equity. Most relevant to us today is her extensive experience surrounding the Arctic. Her experience includes, but is not limited to, collaborating on International Polar Year projects, working with the Inuit Circumpolar Council, and the Northern Contaminants Program.
